

Sushi is a very sweet and equally stunning male cat available for adoption in Tofino, BC. He is about 1 year old and has been neutered 2 weeks ago. He is all-grey with a white patch on his chest and has the most mellow & relaxed vibe. He does not scratch walls or furniture and is completely litter-trained. He is an indoor-only cat.

His favourite spot:

The couch by the window: He loves to watch birds, people and cars go by.

His favourite activity:

Lounging around the place, but is also very curious and will sometimes follow you around to watch what you're up to. He loves to play with his ball and toys, with or without you!

What he loves in general:

He loves attention and will lay right by your side the whole time you are relaxing - or at least within arm's length. He purrs a lot and loves to be scratched on his head, cheeks, chin and neck. He doesn't mind pets on the back either. Sushi will let you know when he's had enough pets. Reading his body language one can easily tell when he's enough. But don't worry soon he will come back to get more snuggles and attention again!

What he doesn't like:

The sound of the dehumidifier, but doesn't mind the sound of the washer or dryer. Dogs! Kids that do not know when to stop touching him.

How he surprised us:

He did so well with the firework noises on Halloween night and didn't hide or scurry. Sushi is such a wonderfully brave, cuddly and relaxed feline friend to have around. Are you maybe the perfect human for him?
